Abstract

Themes of the conference include all forms of correspondence analysis and related fields, including visualisations of categorical data. Persons wishing to present a paper should send their abstract in electronic form to the e-mail address carme2007@carme-n.org before March 31, 2007.

The abstract should fit on one page using the CARME2007 style file in LaTeX provided at the website http://www.carme-n.org/carme2007. Authors using different text editors, please send your abstract either as an MS-Word or plain ASCII file providing the same information as in this sample file.

For references, use the style of the examples below. The references should be in alphabetical order.

Keywords

Submission of abstract, Reference style, Submission date, How to submit
